## NEUSPEED®

### 3 Pole Fan Switch Wiring Guide.

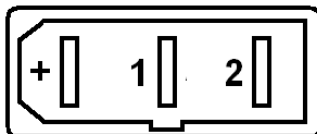

Neuspeed 180°F  
3 Pole Fan Switch  
P/N# 8.170.03

Neuspeed Connector Conversion  
Kit for 3 Pole Fan Switch  
P/N# 8.104

To Install the Neuspeed 3 Pole fan switch on a VAG engine vehicle you will need to wire up the 'Adapter Kit' using the Original wiring to the Standard Fan Switch loom in the Sequence as follows.

Wiring Connector Layout:

- |                            |     |              |
|----------------------------|-----|--------------|
| Solid Red Wire             | → + | (12v + Live) |
| Red Wire with Black Stripe | → 1 | (High Speed) |
| Red Wire with White Stripe | → 2 | (Low Speed)  |

Any DIY Modifications or Wiring carried out to vehicles are done at the owners risk. Awesome Ltd will not accept any liability if a DIY Modification is to go wrong.
